HEALTHCARE SOLUTIONS

AMELIO SLEEP SOFA

Amelio is quite simply a more advanced and more complete solution for sleep-over and seating accommodation. Its sitting and sleeping comfort are exceptional, with the benefit of advanced foam technology. It changes from lounge to sleep mode with incredible ease and speed - and in sleep mode it doesn't require any additional floor space.

AMELIO SLEEP SOFA

Amelio is designed for ease of cleaning and maintenance: there are clean-outs between the seat and back, and in the storage compartment. Upholstery covers on seats and backs can be removable for cleaning or replacement, and most components of Amelio can be completely replaced if damaged or degraded.

AMELIO SLEEP SOFA

Like no other sleep sofa product, Amelio can be specified in exact sizes (in 1" increments) - so it can be made to fit the exact dimensions of its setting! With construction that is highly durable and Greenguard-certified for low emissions, and backed by a lifetime warranty, Amelio is the ideal sleep sofa solution.

AMELIO SLEEP SOFA

STEP 1

STEP 2

AMELIO SLEEP SOFA FEATURES

FOLD DOWN SLEEP SURFACE

The back cushions fold down to instantly transform this sofa into a full-length sleeper - without encroaching on additional floorspace. It features comfortable foam with a moisture barrier, and a vinyl surface. Cushions are fastened in place, but can be removed for cleaning or replacement.

CLEAN OUT

A 5/8" space between the top of the seat and bottom of the back provide a clean out, for debris and liquids to fall or be swept into, going directly to the floor. The storage compartment also features vented bottoms that perform the same function.

STORAGE COMPARTMENT

An optional under-seat storage compartment features a cleanable interior surface with a vented plastic bottom, with a clean-out for debris and liquids. The spring-assisted, stainless steel mechanism holds the seat in the upright position to provide safe access.

RAISED OFF THE FLOOR

Ample space (5.5", plus up to .5" of glide adjustment) between the bottom of the unit and the floor is designed to enable easier cleaning of the floor underneath.

BACK PANEL

The back of Amelio is upholstered in a heavy-duty latex-free gray vinyl, with Velcro openings that provide access to the attachments for the back cushions. The back panel can also be specified (at an upcharge) in any other upholstery material.

ARMS

Options include Upholstered, Wood Arm Cap, and Urethane Arm Cap. Both arm caps enhance the durability of the arms, and feature anti-microbial technology to assist in preventing the spread of germs and microbes.

LEGS

The 2" diameter leg is available in Silver Metallic (steel) and Solid Beech and Maple Wood (in a range of standard and custom finishes, and have an adjustable glide. Amelio units with legs feature 5 legs in total, with the 5th leg located in the rear middle of the unit, providing greater structural strength and durability.

CASTERS

4" Casters are available on the Amelio Sofa sleepers and feature soft wheels, which lock and include an easy access foot activation and release lever. The five casters can be locked both directionally and rotationally, keeping the sofa sleeper securely in place when locked.

PLINTH BASE

This base comes in standard Silver Metallic, or custom colors. It is designed to help prevent dirt, debris and liquids from accumulating under the sofa sleeper. It is removable and replaceable in the field, or can be added subsequently to units with legs.

COMBINATION UPHOLSTERY

For a nominal upcharge, Amelio can be upholstered in combinations of two or more upholstery covers on the same units: arms, seats, back cushions, front panels, and the back panel can be individually upholstered with a specific cover.

	Overall Width	Sleep Surface Length	Overall Depth Chair	Overall Height	Seat Height	Width Between Arms	Arm Height	Seat/Sleep Surface Depth	Shipping Weight	Cubes
