## Silhouette® Chairs

The Silhouette chair provides an elegant stacking solution for any environment. Slight back flex, derived from the chair's unique back construction, enhances comfort.

Whether grouped in a conference setting or used singly as a side chair, Silhouette reflects a cutting-edge attitude. The vibrant design is available as a nylon shell or upholstered in a wide selection of KI, Pallas® and C.O.M. fabrics.

The frame is offered in either a cast aluminum or value-oriented tubular steel version.

Shells are available in two colors: black and warm grey. Frame choices are powdercoat, chrome, or simply polished aluminum in the cast version. With these varied options, the chair can be tailored to fit your style and your environment.

*Designed by Jorge Pensi.*

### What makes Silhouette chairs unique?

Refreshing, clean style and incredible functionality. Designed by Jorge Pensi, this chair is as comfortable and durable as it is good looking. One-of-a-kind back shells are contoured and scaled to minimize pressure points for exceptional comfort. The chair is available in armor armless versions.

Silhouette chairs feature a ribbed backrest. The backrest's design provides an optimal balance of flex and support.

Durable nylon arms provide strength without compromising design appeal (tubular steel frame only).

With or without arms, the Silhouette chairs can be stacked to save space when not in use.
