

More than you expect for less than you expected.

- Plush comfort
- Power and data access
- Low life-cycle costs

■ **Essentially practical. Eminently adaptable.**

Simple access to power and data.

Get convenient access to power and data for laptops with retro-fittable outlets located directly below the arm cap. The 5-wire system provides continuous power for up to 24 seats. Tamper-resistant wire harnesses are discretely concealed within shrouds behind the seats. (Shown: cross section cut-away of shroud)

Oversized tablet arm (10" x 16") is ideal for use with laptops. Safe egress is assured with one-motion tablet arm storage between seats.

Create a design statement for your facility when you enhance the aesthetic appeal of Lancaster seating with wood, laminate or plastic end panels. Arm caps are available in either wood or plastic. Back panels (33-1/2") are available in plastic or wood. A high back panel (38") is also available in wood.

Lancaster® Auditorium Seating

You expect a lot from your auditorium seating. It's got to be comfortable. It's got to meet technological and maintenance needs. It's got to be attractive. And, now more than ever, it's got to be affordable.

Lancaster auditorium seating emphatically meets your expectations. Named after the Lancastrian system of classroom design, Lancaster seating increases learning and retention by providing comfortable seating for students at an affordable price.

Unique design. Plush comfort. You feel more "give" with the resilient sheet-webbing support. You experience more "aah" from extra-thick 3" - foam seat cushions and contoured backs. Four seat spacings - 20", 22", 23" and 24" - accommodate many user shapes and sizes.

Durable. Easy to maintain. Lancaster seating is built to ensure trouble-free longevity. 14-gauge steel uprights for maximum support. Powdercoated frames for long lasting finish. Gravity-lift seat returns with no springs to wear out. 10-year warranty for peace of mind.

Choose from an abundance of fabrics with either black or warm gray frames and trim. Can be mounted on flat or sloped floors or on riser mounts. Options include aisle lights, seat and row numbers, ADA accommodations, acoustical seat pans, and cup holders.
