

Flex™

Recliner

functional design | multiple options | unmatched comfort

Furnishing Knowledge®

A comfortable patient chair with design flexibility.

Flex™ Recliner

The Flex Recliner combines the flexibility of multiple accessory options, while providing patients with unparalleled comfort and stability.

Its curved lines, contoured back cushion, and three seating positions make it a restful and extraordinary hospital recliner. Easy-to-change replacement covers, panels and a side table that folds down as needed make it an ideal choice for the recovering patient.

Flexible comfort with stylish form.

The Flex Recliner exhibits the flexible functionality that recovering patients need, offering three restful positions for reclining. Whether you're looking for function or form, it's sure to deliver.

Replacing upholstered panels and covers "in-field" is quick and easy, thanks to simple pop-and-snap connections.

Lock the articulating table in the up position for multi-use purposes.

Available with upholstered or wood arm caps.

Magazine rack option

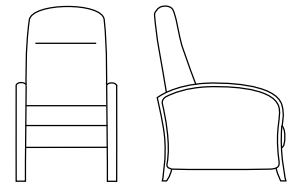

IV pole option

Catheter hook option
